SUMMARY

An impact-driven finance professional at Tata Consultancy Services with expertise in financial analysis and forecasting, enhanced by proficiency in advanced Excel, AI tools and financial databases to automate reporting, strengthen compliance and improve operational efficiency. I am eager to apply this blend of finance and technology to address critical business challenges in a high-impact strategic role.

WORK EXPERIENCE

Financial Systems & Business Analyst

Tata Consultancy Services Limited | Hyderabad

Jun 2024 - Present

• Client : Deutsche Börse -

- Supported client onboarding and lifecycle management processes by analyzing business requirements, configuring client data structures, and enabling efficient management of institutional client information.
- Collaborated with cross-functional stakeholders to resolve business process issues identified during pilot implementations, ensuring timely delivery of enhancements that improved operational efficiency and user experience.
- Assisted enterprise data migration from SAP to the Fenergo platform by validating client information, resolving data-quality issues, and ensuring accuracy of critical business records during system transition.
- Coordinated functional validation of workflow enhancements and integration changes, supporting reliable business operations and regulatory compliance within an Agile delivery environment.

• Client : PepsiCo -

- Enhanced financial planning through improved multi-currency forecasting and FX analysis, supporting more reliable budgeting and business decisions.
- Ensured reporting accuracy during month-end and quarter-end close by validating financial data and balance roll-forward activities.
- Increased finance team efficiency by automating cost-center and Role ID mapping, reducing manual effort by over 40%.

Sales Trainee Intern

Silver Star Mercedes Benz - Raam Group | Hyderabad

Jun 2023 - Jul 2023

- Conducted financial analysis of working capital, receivables, and payables to optimize liquidity, contributing to a 10% improvement in the cash conversion cycle and supporting informed cash management decisions.
- Built Excel-based financial models, ROI analyses, and AP/AR reporting dashboards while supporting invoice validation, vendor reconciliation, and month-end financial reporting to improve operational efficiency and decision-making.

PROJECTS

Chipotle Mexican Grill: Financial Modeling & Multi-Scenario Forecasting

- Assessed Chipotle's financial health and growth strategy by analyzing historical performance (FY21-FY24), identifying key trends in profitability and the trade-off between new store expansion and same-store sales.
- Built a financial model to forecast a 4-year outlook on revenue, EPS, and valuation, quantifying the potential impact of various market conditions through a detailed Bull, Base, and Bear scenario analysis.

SUMMARY

A tech-forward financial analyst at Deloitte, specializing in converting complex datasets into risk-mitigating strategies and actionable financial models. I excel at deploying automated solutions using Advanced Excel, Power BI, and Refinitiv to enhance analytical precision and efficiency. Eager to leverage this fusion of finance and technology to solve high-stakes client challenges in a strategic consulting role.

WORK EXPERIENCE

Risk and Brand Protection Analyst Jun 2024 – Present
Deloitte, Hyderabad.

- Partnered with practice leaders to design flexible pricing models, simulating cross-engagement billing scenarios and hourly rate dynamics to evaluate portfolio-level margin trade-offs and maximize realization.
- Evaluated engagement scope and corporate independence risk using Capital IQ, Refinitiv, and proprietary internal tools to navigate SEC/AICPA requirements, assessing permissible advisory engagement structures and strategic revenue potential across the global Audit & Assurance business line while ensuring zero compliance breaches.
- Developed an in-house Power BI analytics dashboard integrated with Power Automate to ingest and track operational metrics, eliminating 45 minutes of daily reporting effort and unlocking approximately 10% additional daily capacity.
- Earned 3 firm-wide awards in 26 months for translating complex business requirements into analytical roadmaps across cross-functional stakeholders, enhancing team throughput and executive decision-making.

Portfolio Management Intern Jun 2023 – Jul 2023
Oxane Partners, Hyderabad.

- Developed complex financial models in Excel to assess investment performance and borrower creditworthiness, performing trend analysis on financial statements to directly inform portfolio decisions.
- Conducted detailed analysis of loan agreements and financial covenants, abstracting key terms and calculating financial ratios to support portfolio risk management and due diligence.
- Assessed the creditworthiness of potential borrowers by utilizing financial spreading techniques and analyzing historical performance to identify key trends and risks. Contributed to a key fintech initiative by supporting the development of an in-house OCR model aimed at automating data extraction from legal and financial documents to enhance operational efficiency.

Talent Acquisition Specialist Jan 2022 – Aug 2022
SSi People, Bangalore.

- Managed full-cycle recruitment with a focus on commercial viability, negotiating client rates to secure profitable placements and mitigate financial risks during candidate onboarding.
- Conducted data-driven sourcing and due diligence on large-scale candidate databases, implementing a framework that successfully identified and eliminated fraudulent applicants.

PROJECT

Starbucks Corporation (SBUX) — Financial Modeling & Scenario Analysis

- Built integrated Base/Bull/Bear financial models using scenario frameworks, quantifying the impact of store expansion, same-store sales growth, and margin dynamics on EPS, valuation, and capital allocation decisions.
- Analyzed historical performance across Starbucks' 40,000+ store footprint with Refinitiv and Excel, forecasting 2025–2028 trends to highlight revenue volatility, margin sensitivity, and declining per-store revenue as key earnings drivers.

EDUCATION

Masters of Business Administration - Finance & Marketing Aug 2022 - May 2024
GITAM School of Business, Visakhapatnam, Andhra Pradesh. CGPA - 8.54 (A Grade)

Bachelor of Business Administration - Finance May 2018 - Aug 2021
Dayananda Sagar Institutions, Bangalore, Karnataka. CGPA - 9.0 (A+ Grade)

CERTIFICATIONS

- Financial Modeling & Valuation Analyst (FMVA) by Corporate Finance Institute (CFI). Jun 2025
- Bloomberg Market Concepts by Bloomberg. Sep 2025
- Microsoft Power BI Desktop for Business Intelligence in Udemy. Aug 2026
- Microsoft 365 Fundamentals by Microsoft in Coursera. Apr 2023

KEY ACHIEVEMENTS

- Spot Award, Deloitte - Designed & implemented process automation cutting turnaround time by 80%, improving operational efficiency.
- Vice-President, AIKYA, GITAM School of Business - Led student initiatives, driving engagement and improving club operations.
